   DEXTER HIGH SCHOOL, DEXTER, MI

Experience

TECHNOLOGY SERVICES GROUP, CHICAGO, IL
Web Application Developer Intern, May 2016 – August 2016
- Utilized the front-end technologies Javascript, JQuery, KnockoutJS, and BackboneJS, balancing 2 summer projects
- Gained experience working with industry level Test Driven Development, using Karma and Jasmine to run tests on my code
- Developed software using the tools Gradle, Grunt, Apache Tomcat, Subversion, Atom, and Eclipse throughout the summer
- Presented one of my projects for the summer to upper management and participated in frequent code reviews
- Introduced to Java backend development with Eclipse.

CROWE-HORWATH LLP, CHICAGO, IL
Applied Technology Intern, June 2014 – August 2014, May 2015 – August 2015
- During the first summer I performed maintenance on an industry web application, completing a variety of support tasks
- Gained industry knowledge of working on a development team, learning to communicate effectively
- Introduced to numerous technologies, including C#, Microsoft SQL Server, Visual Studio and version control with TFS.
- The 2nd summer I was introduced to the front-end technologies Javascript, HTML5, JQuery, and AngularJS
- Utilized these technologies in a user interface update, converting views based on Webforms to AngularJS MVC style
- Planned my days efficiently, completing multiple major client deadlines on time throughout the summer
- Advanced my knowledge of databases and back-end technology, using Microsoft SQL Server to run queries and test data

SPARTY'S, EAST LANSING, MI
Store Manager, August 2012 – November 2014
- Substantial experience and skills working with a wide variety of customers and upper management
- Accustomed to working in a fast-paced environment while making quick and effective decisions
- Excellent ability to work well with others, leading vocally and by example

Skills

- Languages: C++, Javascript, C#, HTML, Python, Java and Swift in order of experience
- Familiar with front-end technologies having industry experience using JQuery, AngularJS, and MVC style programming
- Thrive in a team based environment, can learn quickly and efficiently
- Ability to prioritize under pressure, balancing my personal and professional life

Honors & Activities

- Currently developing a project for Ford SYNC involving iOS and Android for my senior capstone class
- Employee of the Week, Week of 8/1/2016, Technology Services Group, Chicago, IL
- Dean's List, Michigan State University, Fall 2012, East Lansing, MI
- National Honor Society Member, Dexter High School, Dexter, MI
